

Canfresh Laundry Degreaser

Powerful Drycleaning Detergent

Solvent Free

This product is a highly concentrated degreaser-emulsifier designed for use in commercial and institutional laundry operations. It contains emulsifiers, synthetic surfactants and water soluble solvents which work synergistically to remove tough greasy stains.

It is well suited for use in industrial applications for removal of grease and oil. It may also be used in laundering greasy tablecloths, uniforms, etc.

DIRECTIONS:

Use approximately 2 - 6 mL per kg (1.5 - 4.5 oz. per 50 lbs) of laundry in addition to regular detergents in wash cycle. The amount needed will depend on the extent of grease and oil present.

NOTE: This product is best used prior to spotting chemicals in order to remove the bulk of grease and oil stains before proceeding in the wash cycle.

For Commercial Use Only
